

JUSTINE G, ODI

Junior Developer

(+63) 9810799691 | justineodi09@gmail.com | github.com/Justine976

EDUCATION

Mabini Colleges Inc. | B.S. in Computer Science **2024 - 2028**

Relevant Courses: Programming, Application Software, Data/Discrete Structures, Calculus

- **Certificate of Achievement:** CC103 Intermediate Programming in Java - **2025**

Vinzons Pilot High School | Technical-Vocational Livelihood (TVL) **2022 - 2024**

(EPAS) Electronic Productions Assembly and Servicing

TECHNICAL SKILLS

Programming: Java (Intermediate), SQL (Beginner), HTML/CSS/JS (Beginner)

Technical Tools:

- Microsoft Word, Excel, PowerPoint
- Google Docs, Sheets, Slides
- Adobe Photoshop, Illustrator
- Visual Studio Code
- Apache NetBeans IDE
- GitHub, Git (Basic)
- Blender, Roblox Studio (Basic)

Electronics Skills:

- Electronic assembly and wiring
- Soldering and desoldering
- Reading basic circuit diagrams
- Using multimeter and hand tools
- Troubleshooting simple devices
- Identifying electronic components
- Following safety procedures

PROJECTS

Portfolio Resume Website | Personal Web Application | 2026

Live Link: justine976.github.io/PortfolioResume

Payroll Management System | Java Desktop Application | 2026

Technologies: Java, JavaFX 25, SQLite, JDBC, Maven

- Built an offline desktop payroll management system for handling employee and payroll records.
- Implemented a layered application structure with model, repository, service, database, and UI components.
- Integrated SQLite for local data storage and configured Maven for application packaging and desktop deployment.

Employee Management System | Java Desktop Application | 2025

Technologies: Java, Swing, MySQL, JDBC, Ant

- Developed a desktop-based employee management system with full CRUD functionality.
- Implemented database connectivity using JDBC and applied object-oriented programming principles for modular design.
- Managed build and packaging configuration using Ant.
